Professor Reny is one of the best professors. He cares about every student and teaches a flawless class. I wish he was teaching more classes!

Overall fascinating course with a lot of information presented. At the same time, class discussion leadership did not go as it was presented.

I really appreciated how structured this class was as it meant I clearly knew expectations, and could account for it's workload in addition to research and other work I had going on.

Everything that Professor Reny laid out was done and then more so. Every educational goal was met with great depth and then went even further than what the course was offering on the surface.

q10b_improveLrnTxt - 10b. If you wish, make suggestions about the changes in the course or the way it is taught that would in your estimation enhance student learning.

It seems to me some of the contents are redundant.

The syllabus appeared too ambitious when it came to readings. Several modules felt as if they finished abruptly or incomplete due to moving on to the next module. Also left less time for some leading class discussions.

I wish we got a bit more feedback on our weekly outlines, were they lacking in certain areas, what other points we should have noticed ect.

Zero

Absolutely nothing, one of the best courses I have taken in my educational career.

q10c_comments - 10c. If you wish, make additional comments or suggestions below.

10c. If you wish, make additional comments or suggestions below.

Add a bit more political history or historical background to make the lecture more interesting and memorable, so students not only learn what happened, but also understand why and how it happened.

Tyler is a gem in DPE.

Good class

Professor Reny shows great interest in his students, and was thus very willing to help with research or any sort of help students need. Very refreshing and greatly appreciated from the student's point of view.
