10a. If you wish, comment on the extent to which the goals of the course ha...

Tyler is one of the best educators when it comes to coding in R I've had, and that was reflected in this course.

Fantastic course, created from the ground up by Dr. Reny. His attention to detail, thoughtful responses, and innovative teaching style created an unforgettable classroom experience. He went above and beyond to accommodate students online, as well as in-person.

Dr. Reny went the extra mile with this course. He brought in experts from the field to talk to us about their work styles and always encouraged us to have questions for them. Dr. Reny's consistent push to show how the work is relevant, how we can see it in our daily lives, and how it is a constantly changing field due to all the work being poured into it was very enriching.

q10b_improveLrnTxt - 10b. If you wish, make suggestions about the changes in the course or the way it is taught that would in your estimation enhance student learning.

10b. If you wish, make suggestions about the changes in the course or the w...

I would say that this class is very much a combo class with the other course Dr. Reny is teaching. Had it not been for my knowledge of the other system, I would not have been at the same level weekly as my classmates. It is not to the point where you would not understand, but more of the sense that you would not have the same ease with the information being presented as you would otherwise.

Continue to bring in speakers who are conducting surveys in the field. This was a fantastic contribution to the learning experience.

Sometimes in some weeks, there just seemed to be too much reading to get through, but that was only once or twice

q10c_comments - 10c. If you wish, make additional comments or suggestions below.

10c. If you wish, make additional comments or suggestions below.

This particular class is the first class in my graduate studies to help me understand what I can do with my degree. Before this course, it felt that everything was theoretical, and there was never any talk of what we could do after all this schooling. This class is the first class to give me a sense of hope for what comes after, and for that alone, I firmly believe that Dr. Reny's course should be consistently offered to students.
